Professional Summary

Independent Android Developer with experience designing and publishing mobile applications using Kotlin, Jetpack Compose, and Firebase. Skilled in Java, Spring Boot, MongoDB, SQL, and Unity2D with C#. Published one Android app on Google Play and created multiple game demos available on GitHub. Strong foundation in mobile development, backend integration, and clean architecture (MVVM). Seeking a Junior to Mid-level Android Developer role to apply technical expertise and grow within a dynamic team.

Technical Skills

- Languages: Kotlin, Java, C#, SQL.
- Mobile Development: Android SDK, Jetpack Compose, hilt, Room, Firebase (Auth, Firestore, FCM, Functions, Crashlytics).
- Backend: Spring Boot, REST APIs, MongoDB, SQL.
- Game Development: Unity2D, C#.
- Tools & Practices: Git, GitHub, Agile, Clean Architecture (MVVM).

Experience and Projects

Independent Android Developer Self-directed project, MindNotes app .	<ul style="list-style-type: none">- Built and published a productivity Android application using Kotlin and Jetpack Compose.- Integrated Firebase Authentication, Firestore, and FCM Functions for a cloud-based backend.- Applied MVVM architecture for scalability and maintainability.- Deployed to Google Play Store, available for public download.
Full-stack Demo Spring Boot + mongoDb + Android app	<ul style="list-style-type: none">- Developed a REST API with Spring Boot and MongoDB.- Integrated backend with Android frontend to demonstrate full-stack skills using Retrofit.- GitHub link: https://github.com/PabloPalGil/FullStack-Demo.git
Unity2D game Demo	<ul style="list-style-type: none">- Turn based 2D rpg style game developed in C# with Unity.- Implemented core gameplay mechanics, UI systems, complex battle system, inventories, narrative, SFX, BGM, VFX.- GitHub repo (demo available): https://github.com/PabloPalGil/projectRPG/blob/main/README.md
CFGs-DAM FCT Full-Stack developer	<ul style="list-style-type: none">- Working experience program (400h) to obtain CFGs DAM title.- Help to develop Cryptospace website (React framework and TypeScript). Implemented a GoogleMaps API map on the web.
Other projects portfolio	<ul style="list-style-type: none">- Small but interesting projects worth if interested.- GitHub repos link: https://github.com/PabloPalGil?tab=repositories

Education

- CFGS - DAM – IES El Caminàs | Average grades: 9.8/10 | 2023- 2025
Multiplatform Applications Development: 2 years course focused in multiple languages and clean programming foundations. Included 400 hours of laboral experience (FCT).
- Industrial Engineering Masters Degree – Jaume I University (2014-2016)
- Industrial Technologies Engineering Bachelor Degree – Jaume I University | (2010-2014)
Source of my background and previous working experience in the industry sector.

Certifications

- English C1 level by Cambridge English | 2020.
- German A2 level by Spanish EOI (Official Languages School) | 2012 - 2013
